## NIKTEK offers friends and customers Discounted Power Rates

Contributed by John Nikolatos  
Saturday, 13 February 2010

Hello all -

<http://www.bigpowersavings.com/>

NIKTEK LLC has partnered with Discount Power a power company in CT. The power industry has been deregulated and now competition is promoted in the form of cost savings to UI and CL&P clients. NIKTEK LLC can offer our clients and friends up to 20+ percent off of UI and CL&P electricity pricing (for power generation portion of the bill) of your electricity bill.

Many of you already trust NIKTEK to help make technical IT decisions within your company. We are trying to show you that working with NIKTEK is a plus and that we try to do everything we can to help you save money. We can offer this to any person or corporation in CT. If you make the switch please use the link above at <http://www.bigpowersavings.com/>

Your power bill will still come from the same company it does now.

Service will never be disrupted.

There are no contracts.

Your service can be cancelled at anytime.

All you can gain is a savings from this offer.

Service issues and power questions are still serviced by your current provider (CL&P or UI).

Nothing changes but a lower bill and the name of the power distributor on your bill. Again - this can be forwarded to your friends, employees and family so they can start saving as well.

To check current rates please visit [http://www.ctenergyinfo.com/display\\_rates.htm](http://www.ctenergyinfo.com/display_rates.htm) DP is at \$.0967 and CL&P is at \$0.11051 and UI is at \$0.011568

FAQ from ctenergyinfo..

No. 1 - CL&P or UI will be upset if I Choose An Electric Supplier

Fact - CL&P and UI encourage their customers to Choose an Electric Supplier because lower electric costs benefit everyone in Connecticut.

No. 2 - My new electric supplier can shut off my service

Fact - Only CL&P and UI can terminate electric service to your home or business and termination is strictly regulated by the Connecticut Department of Public Utility Control.

No. 3 - CL&P and UI will lose money if I Choose an Electric Supplier

Fact - CL&P and UI do not earn a profit on the electricity they deliver to their customers. The two companies simply purchase electricity to deliver to customers who do not Choose an Electric Supplier. Customers pay exactly what CL&P and UI pay - no more, no less.

No. 4 - If my electric supplier goes out of business I'll lose service

Fact - Electric service will not be interrupted if a supplier goes out of business. You would be returned to CL&P or UI generation services and would pay the CL&P or UI generation services rate. You could then stay with CL&P or UI, or, choose another supplier.

No. 5 - I have to give out personal information if I want to Choose an Electric Supplier

Fact - Suppliers DO NOT NEED AND SHOULD NOT REQUEST personal information such as a Social Security number, credit card information, checking account numbers, etc. Suppliers will need you to provide information from your electric bill to authorize the switch. To avoid delay in switching, it is very important that you provide this information accurately.

No. 6 - Savings begin immediately

Fact - Customers who Choose an Electric Supplier are switched to the suppliers' rate on their next regularly scheduled meter reading date. So, depending on where you are in your meter reading cycle it can take more than 30 days to have the supplier's rate appear on your bill. To avoid delays in switching, it is very important that you accurately provide the necessary billing information to the supplier.

No. 7 - There's a charge to switch to another electric supplier

Fact - There is NO CHARGE to switch electric suppliers and you can return to CL&P or UI Standard Service generation if you like. Most suppliers do not have a cancellation fee, but some do. So, be sure to ask whether the supplier charges a cancellation fee before enrolling.

No. 8 - The savings are too small to bother switching

Fact - Depending on the offer, you can lower your total electric bill by 10% or more.

No. 9 - It's difficult to switch

Fact - It's EASY TO SWITCH and the supplier you choose will do the work for you. You will need to provide the supplier with certain information from your electric bill. To avoid delay in switching it is very important to accurately provide the necessary information. Double check this information to be sure it's correct.

No. 10 - Suppliers will start billing me separately for my electric service

Fact - You will continue to receive one electric bill from CL&P or UI. The only difference will be the rate you pay for the generation service portion of your electric bill.

No. 1 - CL&P or UI will be upset if I Choose An Electric Supplier
